THREE DECADES
OF UNDERGROUND CULTURE

Based in Merano, South Tyrol (Italy), DJ Veloziped has been a distinctive presence in underground electronic music culture since 1995. Widely regarded as one of the pioneers of Techno in South Tyrol, he connects musical scenes, generations and dance floors through an uncompromising passion for vinyl.

His musical identity took shape in Vienna during the 1990s, shaped by the city's electronic scene and the sounds of Detroit, Chicago and Berlin. A dedicated collector of more than 7,000 records, Veloziped approaches DJing as selection, storytelling and spontaneous musical dialogue.

His sets move between raw Detroit Techno, deep and soulful House, futuristic Electro and experimental dance music. Always performed exclusively on vinyl, they reflect musical history while remaining connected to the present.

His engagement extends beyond the DJ booth through radio, lectures, exhibitions and cultural projects. For Veloziped, DJing is about musical curiosity, cultural exchange and the spirit of independent club culture.

VINYL
AS CULTURE

An extensive record collection, a deep connection to Detroit and a commitment to hands-on mixing define Veloziped's practice. His sets are guided by curiosity rather than genre boundaries or commercial formulas.

30 YEARS

In 2026 he released a commemorative art book and a special 12-inch EP featuring Detroit producer Scott Ferguson, mastered by Stefan Betke.
